MONDRIAN

MULTIPLES

Mondrian Multiples rooted its beauty in art's natural standing nature. It is totemic, that it sets out what modernism is about.

True to its principle, where it was derived from, it has 2 primary directions, vertical and horizontal as well as its 3 primary colors white, black and gray.

Setting complexities aside, these hangers extend display capacity in both ways vertically & horizontally. Mondrian Multiples comes in from 2-way up to 16-way round and square tube components. Accentuated with caster wheels and other optional accessories.
